## SIL-MAR Construction Corporation

has been providing industry with corrosion-resistant construction for over 30 years. We have the expertise to install a wide spectrum of systems including brick, tile, coatings and linings. As a second-generation family business, we take great pride in continuing our commitment to superior quality installations using today's corrosion-resistant technology.

## Quality Craftsmen

You can rely on SIL-MAR's professionally trained craftsmen to do the job right the first time. Our team of tilers, brick layers and applicators provide functional and attractive installations that will meet all your project requirements. All construction has high chemical and thermal resistance, and are long-lasting and maintenance-free. Every SIL-MAR installation is fully guaranteed.

## Proven Brand Name Materials

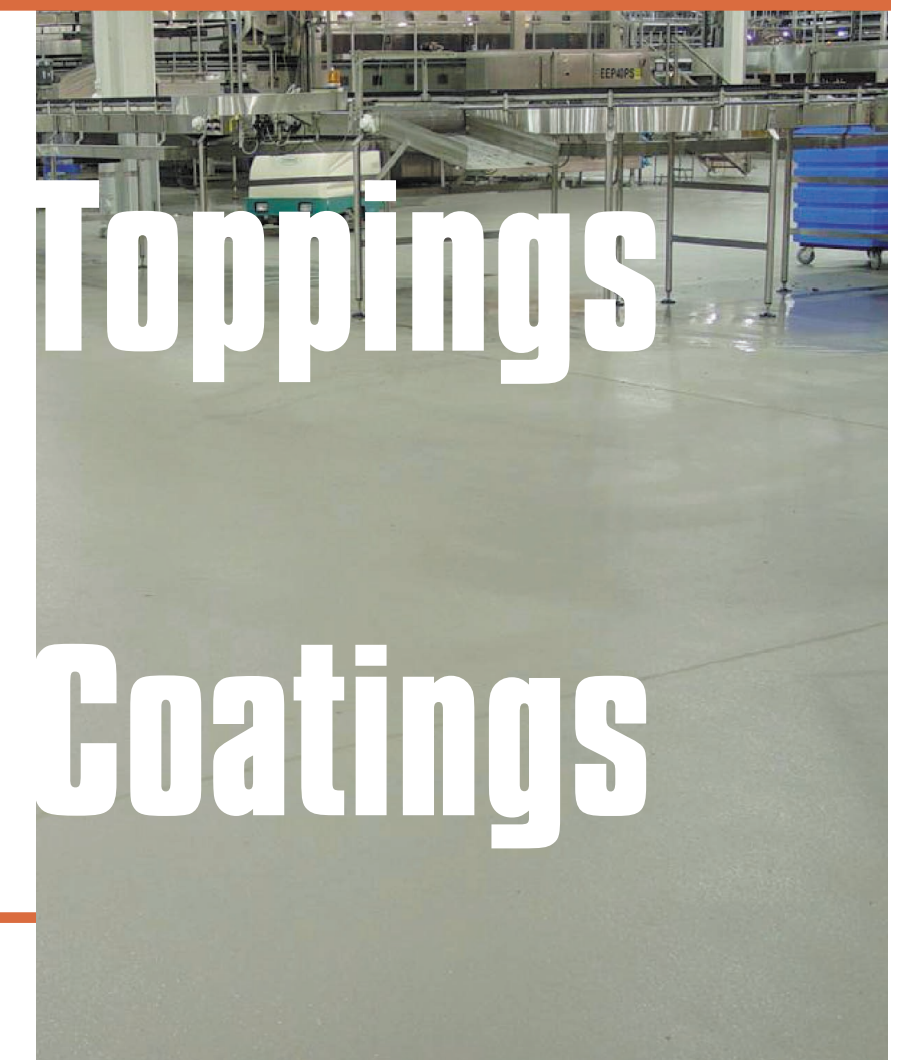

Our substantial project history gives us the expertise to know which corrosion-resistant construction materials work best in different situations. We know that certain products solve problems better than others and will recommend and use the products to best fit your job. Our long list of project references will attest to our successful selection of materials.

## Prompt and Complete Service

Realizing that plant shutdowns are a prime time to tackle maintenance projects, we will accommodate night, weekend and even holiday work schedules. Whether we're contracted for maintenance work, new construction or renovation, we'll work within your schedule to complete the project on time, per your specifications and within budget.
